1. PROFILE

I have more than 6 years of experience in programming. I started my journey in 2016 as a web developer intern, with an emphasis on PHP and WordPress. After that, I decided to evolve, which led me to a senior level of full-stack development, from **DevOps** with Docker, Linux, Apache, NGINX, and NodeJS, to **Back-End** with Laravel, WordPress, ExpressJS, MySQL, PostgreSQL, and MongoDB, **Front-End** with JavaScript/TypeScript, React, NextJS, Angular, Bootstrap, TailwindCSS, SASS, and jQuery, **Desktop** with JavaScript/TypeScript and ElectronJS, and, finally, **Mobile** with JavaScript, Ionic, and React Native.

I like to keep studying and evolving my knowledge, as well as my soft skills, focusing on staying updated with market-leading technologies. Also, I enjoy challenges that keep me engaged and excited in the projects I'm working on.

2. OBJECTIVES

- **Positions**
  - Mid-level/Senior Full-Stack Developer; Mid-level/Senior Back-end Developer; Mid-level/Senior Front-End Developer; Mid-level/Senior Mobile Developer.

- **Modality**
  - Remote (Home Office)

3. SKILLS

- **DevOps**
  - **Operating Systems:** Linux; Windows Server
  - **Softwares:** Docker; Apache; NGINX; PHP-FPM; PHP-CGI; NodeJS
  - **Services:** Hostgator; Hostinger; Locaweb; Amazon AWS; Google GCP; Cloudflare; GitHub Actions

- **Back-end**
  - **Databases:** MySQL/MariaDB; PostgreSQL; MongoDB
  - **Programming Languages:** PHP; JavaScript; TypeScript
  - **Frameworks, CMSs and Libraries:** Laravel; CodeIgniter; Wordpress; ExpressJS; Prisma ORM

- **Front-end**
  - **Programming Languages:** HTML; CSS; SASS; JavaScript; TypeScript
  - **Frameworks and Libraries:** React; NextJS; Angular; jQuery; Bootstrap; TailwindCSS

- **Desktop**
  - **Programming Languages:** HTML; CSS; SASS; JavaSript; TypeScript
  - **Platforms:** Windows; macOS; Linux
  - **Frameworks and Libraries:** ElectronJS

- **Mobile**
  - **Programming Languages:** HTML; CSS; SASS; JavaScript; TypeScript
  - **Platforms:** Android; iOS
  - **Frameworks and Libraries:** Ionic; React-Native; Expo

- **Complementary**
  - Multi-platform game development with Unity3D and C#
  - Experience with Git and related platforms (such as GitHub, GitLab, BitBucket and Azure), and Gitflow directives
  - Experience working with SCRUM
  - Experience with data formats, such as JSON, XML and YAML

4. EXPERIENCES
